Get ready for the

# 4<sup>TH</sup> INDUSTRIAL REVOLUTION

## PROGRAMME GOALS

Learn and apply the latest methodologies in occupational teaching & learning to prepare your students for the 21<sup>st</sup> century world of work. With help of external local and international experts, you will continuously expand your technical, didactic and pedagogical competences by designing, implementing and reflecting guided teaching and learning arrangements.

The programme TRAINME develops the training and further education of lecturers at South African TVET colleges, following the proven German dual education system.

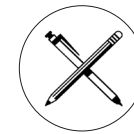

## WHO WILL ATTEND?

Electrical and Mechanical Lecturers

from the following pathways:

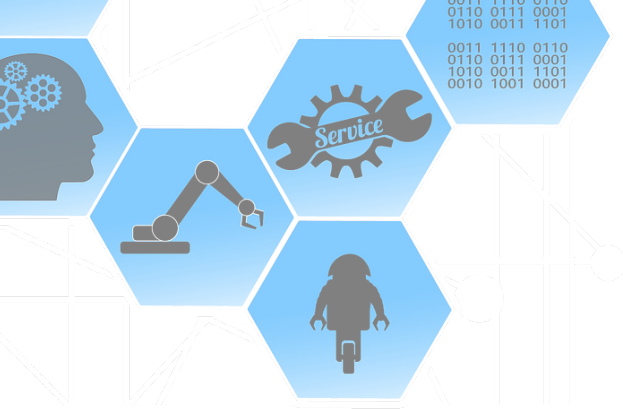

NC(V) and NATED.

The participants will be selected by their respective colleges.

## MODE OF DELIVERY

Presence phases with theoretical and practical training. Self-study phases with online tutoring.

## WHO WE ARE

TRAINME is a joint project of the Inter-Company Training Center in Eastern Bavaria and the University of Stuttgart on behalf of the Federal Ministry of Education and Research. The basis for this project is the close cooperation between Germany and South Africa.

TRAINME works in close collaboration with the Department of Higher Education and Training (DHET) to strengthen a sustainable basis for cooperative vocational education & training in South Africa and to contribute to the development of dual training models.

# We look forward to seeing you at the course!
